Examiner Donald R. Valentine	Art Unit 1742

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --
 Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133).
- Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Allowable Subject Matter

1. The indicated allowability of claim 19 is withdrawn in view of the newly discovered reference(s) to Detting et al. Rejections based on the newly cited reference(s) follow.

Claim Rejections - 35 USC § 112

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claim 19 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

The word "workpiece" lacks antecedent basis.

Claim Rejections - 35 USC § 102

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States

4. Claim 17 is rejected under 35 U.S.C. 102(b) as being anticipated by Detting et al.

Detting et al show carbon bipolar plate comprising machined "features" having dimensions between 0.1 and 1 millimeter. (See col. 4, lines 45-50; col. 8, lines 28-49). The reference does not recite a "proton exchange membrane fuel cell", however, statements of intended use are not given weight when determining patentability of apparatus (product) claims.

The reference does mention fuel cells. The reference recites carbon, which inherently comprises a carbon-carbon structure, i.e. carbon-carbon bonded.

Allowable Subject Matter

5. Claims 18 and 33-41 are allowed.
6. Claims 24-32 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
7. The following is a statement of reasons for the indication of allowable subject matter:
The references of record do not show or suggest a Carbon-Carbon heat exchanger core comprising a 2-D array of machined fluid passageways extending through the heat exchanger core, the fluid passageways having dimensions between 0.1 and 1 millimeter.
